

## **PHOTO IV – Proposal and Artist Statement**

Ontario Arts Council Grant Application – Visual Artists Creation Projects 2022

[Visual Arts Exhibition Assistance Grant has similar questions, as does Canada Council, Toronto Arts Council and many other grants]

### **ARTIST STATEMENT**

\* Tell us about your (or your group's) overall artistic work, history and achievements. What is important to you in your work (cultural influences, your identity, geography, community, language, etc.) and why? If you identify with one or more of OAC's priority groups, or if your ad hoc group/collective or organization is mandated to serve one or more of OAC's priority groups, you may choose to refer to this [here](#).

Include a concise artist statement about your work.

(Maximum 300 words)

### **PROJECT PROPOSAL**

\* What are you planning to do, and what do you want to achieve with this project?

Explain how you plan to use your grant funds. Include information on what you will create, and what expenses will be covered by the grant. Eligible expenses include:

- Material and supplies, production costs.
- Studio space or equipment rental.
- Artist fees (payment to yourself or other artists engaged in creating the work. Artist fees should be calculated based on time or contribution to the project and/or relevant industry standards. The program does not fund living and personal expenses – do not include these as the rationale for the calculation of artist fees).
- Travel is only eligible if it's directly related to the creation of your work.

(Maximum 425 words) (Use point form when appropriate to save space/word count.)
